Thus trues has the superiority of any heretofore in use: arsi, on account of its durability and cleanliness, the rupture pad leing of glass, (in any shape or form,) the adjustments of the springs to shape or form.) the adjustments of the springs to suit the action of the body, and calculated to be fitted to either side. The rupture pad (glass) has a double motion: first, by revolving on its own axis; second, by the lever to which it is attached, and where said lever is connected to the main spring. The superiority which this truss has over others is obvious in this, that it is most effectual in retaining the parts in their proper place, and making due pressure; it is always clean; its shape or form is durable, which in stuffed pads is not the case, (as they become saturated with the fluids from the body.) The umbilical truss is unsurpassed, being so adapted as to remain perfectly secure where applied.

The infirmary has been divided in such manner as to separate the several classes of patients, viz: white and colored, male and female; and, from its position and regulations, proffers retirement and privacy as far as can be wished.

Two resident physicians are in constant attendance, and the infirmary is visited daily at 11 o'clock, a. m., by the attending physician and surgeon, who also devote as much time as is necessary for prescriptions, operations, and dispensing of medicines for all such dispensary patients as may be in waiting. Besides these attendants, the directors have been fortunate in securing the services of the SIS-TERS OF CHARITY, who reside in the infirmary, conduct its sffairs, and give their undivided attendants.

ronsed by the most eminent of the medical profession.

By merely pouring water on a tea-spoon full of this aperient, a cooling and grateful effervession beverage is obtained resembling soda water to the taste, and imparting to the constitution all the benefits of the celebrated Seltzer waters of Germany.

Medical men of eminence commend in the highest terms the preparation known as Tarrant's Effervescent Seltzer Aperient. Its success in bilious affections, dyspepsia or indigestion, heartburn, febrile disorders, gout, acidity of the stomach, &c., and all the various complaints caused by the sudden changes of temperature so usual in warm latitudes, has been so great that it has been highly recommended, and has, in consequence, been generally prescribed; and the most satisfactory results have invariably followed. In a torpid state of the liver its action upon the system has been so beneficial that its energies have been revived and its healthy tone restored.

No preparation has ever been introduced to the notice of the medical profession or public which has given such universal satisfaction as Tarrant's Effervescent Seltzer Aperient. It should be freely used at this season as a preventative and dispeller of those sick headaches, languor of the body, loss of appetite, acidity of the stomach, &c., the forerunners of billious or febrile attacks. A tea-spoon full taken avocations of the day, and invariably creates an elasticity of mind and flow of spirits which gives a sest to every enjoyment.

Sold wholesale and retail by JAMES TARRANT, No. 268 Greenwich street, corner of Warren. Also at 86 William street, 10 Astor House, 110 Brondway, 2 Park Rew, and 581 Broadway.
